LLC **"ZAVKOM-ENGINEERING"** is a full-cycle production and engineering company providing turnkey services for the supply of high-tech and energy-efficient industrial plants and equipment for the oil, gas, petrochemical, and biotechnology industries.

[Download company profile](#)

HISTORY

The company was founded in 2014 by the owner of one of Russia's largest machine-building enterprises, JSC **"ZAVKOM"** (Tambov Plant "Komsomolets" named after Nikolai Stepanovich Artemov). To this day, we maintain successful collaboration with the plant, manufacturing industrial equipment such as pressure vessels, heat exchangers, columns, and more on its production facilities.

VIEW SERVICES

ADVANTAGES

- Execution under **EPCM contracts** — full accountability for timelines, quality, and production performance of the facility.
- **In-house production** — timely, high-quality contract fulfillment without intermediaries.
- Experience supplying industry leaders: Gazprom, Sibur, Tatneft, Gazprom Neft, Novatek, and others.
- **Certified quality** — management system complies with [GOST R ISO 9001-2015 and STO Gazprom 9001-2018](#).
- [APCS development and supply](#) — production optimization, emergency prevention, remote process control.
- Pilot-plant technology testing — reliable validation of new technologies before full-scale implementation.
- Support for all financial instruments (LG, LC, SBLC, PB) — fast and secure contract execution.
- [Production of shut-off and control valves](#) under our own brand.

VALUES

- Timely fulfillment of contractual obligations.
- Strict adherence to international safety and quality standards.
- Professional project management at all stages.
- Exceptional operational performance of facilities.
- Full legal and financial accountability to the client.

SLOGAN

ZAVKOM-ENGINEERING: Turnkey projects, decades of experience, energy-efficient technologies, high-quality equipment delivered on schedule.
